PROJECTS

CodeX Energy Drink Market Analysis | *Power BI | Marketing Analysis*

05/2026

- Marketing analytics project using Power BI to transform survey data into actionable business insights and strategic recommendations for CodeX Energy Drink.
- Presented insights through data storytelling and visualization techniques to support business decision-making.

OTT-Platform-Merger-Analysis | *Power BI | Telecom & Streaming Services*

05/2026

- Built an end-to-end OTT analytics dashboard using Power BI to evaluate content trends, audience engagement patterns, and platform performance.
- Utilized Power Query and DAX measures to transform, model, and visualize large streaming datasets efficiently.
- Generated business insights to help optimize content acquisition, recommendation strategies, and user engagement initiatives.
- Leveraged data storytelling techniques to present key findings through intuitive dashboards and KPI-driven reports.

Sales Dashboard | *Power BI | MySQL*

11/2025

- Interactive Power BI dashboard visualizing sales, profit, and product performance. Includes SQL scripts used for data preparation.
- Wrote advanced SQL queries involving aggregations, filtering, grouping, and analytical calculations to uncover key sales insights.
- Built interactive dashboards to track revenue, sales performance, customer trends, and product-level metrics.
- Optimized data preparation workflows through SQL transformations, ensuring accurate and reliable reporting.
